

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. INTRODUCTION

THIS, the seventh number of the Annual Bulletin, contains the titles of the books catalogued for the Main (Ryerson) Library collection as published in Volume 8 of the Monthly Bulletin, being the additions from December, 1911, to December, 1912. The books added to the branch libraries are not included in this Annual Bulletin. The Bulletin follows the same general order of arrangement as is used in the monthly bulletins.

The Library has printed catalogues of the books in its collection as follows:

In 1892 there was published a catalogue of all the books in the Library. In 1894 a supplement of additions was published, and in 1898 a second supplement of additions. There is no printed list of books added from 1898 to June, 1904. The public card catalogue, however, in the Registration Room of the Ryerson Public Library building contains all the books added to the main collection of the Circulating Department since 1898, and work is steadily progressing on duplicating this public card catalogue for the whole collection. The card catalogue in the Reference Department is complete for all the books in that department. The card catalogue in the Children's Room is complete for all the books in that room. In the Medical Reading Room there is also a partial catalogue for the books in the medical department. The Library has practically completed the work on a card catalogue for its collection of Michigan history for the Historical Room. In the several branch libraries there are card catalogues for all the books in those collections.

In connection with these card catalogues attention is called to the fact that the Library is prepared to furnish anyone catalogue cards for the books in the Library on any subject that may interest them, and also catalogue cards for new books which may be added from time to time on any particular subject. These cards are supplied at the cost of one cent per card. The usual method is to deposit a dollar or more to cover the charges in this connection. A number of persons have availed themselves of this feature of the Library. It enables anyone to have a printed card catalogue of the subjects in which he is most interested and at a nominal expense.

INTRODUCTION

THIS, the eighth number of the Annual Bulletin, contains the titles of the books catalogued for the Main (Ryerson) Library collection as published in Volume 9 of the Monthly Bulletin, being the additions from December, 1912, to December, 1913. The books added to the branch libraries are not included in this Annual Bulletin. The Bulletin follows the same general order of arrangement as is used in the monthly bulletins. This year, however, there is published for the first time an Author Index.

The Library has printed catalogues of the books in its collection as follows:

In 1892 there was published a catalogue of all the books in the Library. In 1894 a supplement of additions was published, and in 1898 a second supplement of additions. There is no printed list of books added from 1898 to June, 1904. The public card catalogue, however, in the Registration Room of the Ryerson Public Library building contains all the books added to the main collection of the Circulating Department since 1898, and work is steadily progressing on duplicating this public card catalogue for the whole collection. The card catalogue in the Reference Department is complete for all the books in that department. The card catalogue in the Children's Room is complete for all the books in that room. In the Medical Reading Room there is also a partial catalogue for the books in the medical department. There is also a complete card catalogue for its collection of Michigan history in the Historical Room. In the several branch libraries there are card catalogues for all the books in those collections.

In connection with these card catalogues attention is called to the fact that the Library is prepared to furnish anyone catalogue cards for the books in the Library on any subject that may interest them, and also catalogue cards for new books which may be added from time to time on any particular subject. These cards are supplied at the cost of one cent per card. The usual method is to deposit a dollar or more to cover the charges in this connection. ●A number of persons have availed themselves of this feature of the Library. It enables anyone to have a printed card catalogue of the subjects in which he is most interested and at a nominal expense.

INTRODUCTION

THIS, the ninth number of the Annual Bulletin, contains the titles of the books catalogued for the Main (Ryerson) Library collection as published in Volume 10 of the Monthly Bulletin, being the additions from December, 1913, to December, 1914. The books added to the branch libraries are not included in this Annual Bulletin. The Bulletin follows the same general order of arrangement as is used in the monthly bulletins. An Author Index is included.

The Library has printed catalogues of the books in its collection as follows:

In 1892 there was published a catalogue of all the books in the Library. In 1894 a supplement of additions was published, and in 1898 a second supplement of additions. There is no printed list of books added from 1898 to June, 1904. The public card catalogue, however, in the Registration Room of the Ryerson Public Library building contains all the books added to the main collection of the Circulating Department since 1898, and work is steadily progressing on duplicating this public card catalogue for the whole collection. The card catalogue in the Reference Department is complete for all the books in that department. The card catalogue in the Children's Room is complete for all the books in that room. In the Medical Reading Room there is also a partial catalogue for the books in the medical department. There is also a complete card catalogue for its collection of Michigan history in the Historical Room. In the several branch libraries there are card catalogues for all the books in those collections.

In connection with these card catalogues attention is called to the fact that the Library is prepared to furnish anyone catalogue cards for the books in the Library on any subject that may interest them, and also catalogue cards for new books which may be added from time to time on any particular subject. These cards are supplied at the cost of one cent per card. The usual method is to deposit a dollar or more to cover the charges in this connection. A number of persons have availed themselves of this feature of the Library. It enables anyone to have a printed card catalogue of the subjects in which he is most interested and at a nominal expense.

INTRODUCTION

THIS, the tenth number of the Annual Bulletin, contains the titles of the books catalogued for the Main (Ryerson) Library collection as published in Volume 11 of the Monthly Bulletin, being the additions from December, 1914, to December, 1915. The books added to the branch libraries are not included in this Annual Bulletin. The Bulletin follows the same general order of arrangement as is used in the monthly bulletins. An Author Index is included.

The Library has printed catalogues of the books in its collection as follows:

In 1892 there was published a catalogue of all the books in the Library. In 1894 a supplement of additions was published, and in 1898 a second supplement of additions. There is no printed list of books added from 1898 to June, 1904. The public card catalogue, however, in the Registration Room of the Ryerson Public Library building contains all the books added to the main collection of the Circulating Department since 1898, and work is steadily progressing on duplicating this public card catalogue for the whole collection. The card catalogue in the Reference Department is complete for all the books in that department. The card catalogue in the Children's Room is complete for all the books in that room. In the Medical Reading Room there is also a partial catalogue for the books in the medical department. There is also a complete card catalogue for its collection of Michigan history in the Historical Room. In the several branch libraries there are card catalogues for all the books in those collections.

In connection with these card catalogues attention is called to the fact that the Library is prepared to furnish anyone catalogue cards for the books in the Library on any subject that may interest him, and also catalogue cards for new books which may be added from time to time on any particular subject. These cards are supplied at the cost of one cent per card. The usual method is to deposit a dollar or more to cover the charges in this connection. A number of persons have availed themselves of this feature of the Library. It enables anyone to have a printed card catalogue of the subjects in which he is most interested and at a nominal expense.

INTRODUCTION

THIS, the eleventh number of the Annual Bulletin, contains the titles of the books catalogued for the Main (Ryerson) Library collection as published in Volume 12 of the Monthly Bulletin, being the additions from December, 1915, to December, 1916. The books added to the branch libraries are not included in this Annual Bulletin. The Bulletin follows the same general order of arrangement as is used in the monthly bulletins. An Author Index is included.

The Library has printed catalogues of the books in its collection as follows:

In 1892 there was published a catalogue of all the books in the Library. In 1894 a supplement of additions was published, and in 1898 a second supplement of additions. There is no printed list of books added from 1898 to June, 1904. The public card catalogue, however, in the Registration Room of the Ryerson Public Library building contains all the books added to the main collection of the Circulating Department since 1898, and work is steadily progressing on duplicating this public card catalogue for the whole collection. The card catalogue in the Reference Department is complete for all the books in that department. The card catalogue in the Children's Room is complete for all the books in that room. In the Medical Reading Room there is also a partial catalogue for the books in the medical department. There is also a complete card catalogue for its collection of Michigan history in the Historical Room. In the several branch libraries there are card catalogues for all the books in those collections.

In connection with these card catalogues attention is called to the fact that the Library is prepared to furnish anyone catalogue cards for the books in the Library on any subject that may interest him, and also catalogue cards for new books which may be added from time to time on any particular subject. These cards are supplied at the cost of one cent per card. The usual method is to deposit a dollar or more to cover the charges in this connection. A number of persons have availed themselves of this feature of the Library. It enables anyone to have a printed card catalogue of the subjects in which he is most interested and at a nominal expense.

INTRODUCTION

THIS, the twelfth number of the Annual Bulletin, contains the titles of the books catalogued for the Main (Ryerson) Library collection as published in Volume 18 of the Monthly Bulletin, being the additions from December, 1916, to December, 1917. The books added to the branch libraries are not included in this Annual Bulletin. The Bulletin follows the same general order of arrangement as is used in the monthly bulletins. An Author Index is included.

The Library has printed catalogues of the books in its collection as follows:

In 1892 there was published a catalogue of all the books in the Library. In 1894 a supplement of additions was published, and in 1898 a second supplement of additions. There is no printed list of books added from 1898 to June, 1904. The public card catalogue, however, in the Registration Room of the Ryerson Public Library building contains all the books added to the main collection of the Circulating Department since 1898, and work is steadily progressing on duplicating this public card catalogue for the whole collection. The card catalogue in the Reference Department is complete for all the books in that department. The card catalogue in the Children's Room is complete for all the books in that room. In the Medical Reading Room there is also a partial catalogue for the books in the medical collection. There is also a complete card catalogue for its collection of Michigan history in the Historical Room. In the several branch libraries there are card catalogues for all the books in those collections.

In connection with these card catalogues attention is called to the fact that the Library is prepared to furnish anyone catalogue cards for the books in the Library on any subject that may interest him, and also catalogue cards for new books which may be added from time to time on any particular subject. These cards are supplied at the cost of one cent per card. The usual method is to deposit a dollar or more to cover the charges in this connection. A number of persons have availed themselves of this feature of the Library. It enables anyone to have a printed card catalogue of the subjects in which he is most interested and at a nominal expense.

BOOKS IN THE MICHIGAN ROOM

The titles in the following list include a large proportion of books written by Michigan and Grand Rapids authors, also fiction in which Michigan and the Northwest is the scene of the story, documents from many Michigan cities, and publications of Michigan societies and firms. Books published annually such as reports of the boards of education, are not included in this list if an entry has appeared in earlier bulletins.

Books added to the Michigan room since Jan. 1, 1915 will be found in Annual bulletins, 1915 and 1916.
